You're Invited to DIGI-ME Challenge X Winter School

Bringing companies, students, and innovators together

Date: 17 December, 2026

Location: University of Pavia, Italy

As part of the **Winter School "Discovering the Unknown: AI in Healthcare"**, the University of Pavia invites companies and organizations to take part in the **DIGI-ME Network Event & Company Challenge Event.**

An opportunity to connect with the DIGI-ME community, exchange experiences, explore new collaborations, and contribute to innovative solutions for real-world challenges.

Company Challenge: Bring your challenge, inspire new solutions!

Do you have a real-world problem, opportunity, or idea related to **healthcare, artificial intelligence, or digital innovation?**

Bring your challenge to the Winter School!

Participating students will work in multidisciplinary teams to analyse your challenge and develop practical ideas, innovative solutions, and recommendations.

What kind of challenges are we looking for?

Challenges can explore a wide range of topics, including:

- AI and data-driven healthcare solutions
- Digital health technologies and services
- Healthcare data management and decision-making
- Digital transformation of healthcare processes
- Digital skills and competencies in healthcare
- Patient experience and engagement

No advanced technical expertise required. Challenges should be accessible to students from different academic backgrounds and focus on clear, realistic problems or opportunities.

Interested in joining us?

Whether you would like to **propose a Company Challenge**, attend the **DIGI-ME Network Event, or both,** we would be delighted to hear from you!

Get in touch to express your interest and join us on 17 December 2026 at the University of Pavia!

Companies interested in proposing a challenge are kindly invited to:

By mid-November 2026: Confirm your interest in participating.
By 20 November 2026: Submit a short challenge brief.

Further information and guidance on preparing the challenges will be shared with interested companies.
